The screenshot displays a Python IDE with two panes. The left pane shows a Python script with the following code:

```
a=82
b=89
if a>80:
    print("High temperature")
    if b>90:
        print("Hazard")
    else:
        print("High temperature")
```

The right pane shows the IDLE Shell 3.11.0 with the following output:

```
